

No-Slip Wedge™

30-Degree Side Lying Positioning

The No-Slip Wedge™ is a reliable patient turning and positioning aid for patients weighing up to 350 pounds. The high density foam material is soft enough to optimize pressure redistribution, but firm enough to retain its shape through the full duration of the turn cycle. A unique contour-cut pattern on the patient contact surface permits air circulation between the patient and wedge. The No-Slip Wedge™ is a cost effective, user friendly component of your pressure management and turning protocol:

- High Resiliency foam optimizes pressure redistribution.
- Cool and comfortable for superior patient compliance.
- Available in both bare foam disposable and covered reusable versions.
- All materials are antimicrobial, latex free and free of Forever Chemicals, (PFAS).
- Four-Way stretch Dartex® cover option with heat sealed seams available for superior infection control.
- No-Slip material on the bottom of the covers helps to hold the No-Slip Wedge™ in place.

Reusable Covers Prevent Fluid Infiltration:

Fluid Resistant Zipper Enclosure -

The bottom half of the zipper enclosure is backed by a raised border, while the top half of the zipper is covered by a waterfall flap. The two fabric barriers help to prevent fluid ingress.

Dartex Cover Option -

Dartex is a four-way stretch polyurethane material. When the Dartex cover option is chosen, seams are heat sealed, which helps to further prevent fluid ingress.

Disposable, single patient use No-Slip Wedge™ Cushions do not include a cover. They are compress packed to allow for ease of storage, requiring a minimal amount of space.

No-Slip Wedge

30-Degree Side Lying Positioning

Specifications:

No-Slip Wedge™ Disposable:

Made of high-density, antimicrobial foam. The dimensions are 20"W x 11" Deep x 7" Tall. The No-Slip Wedge meets or exceeds California TB 117-2013 fire safety standard.

No-Slip Wedge™ Extra-Long Disposable:

Made of high-density, antimicrobial foam. The dimensions are 26"W x 11" Deep x 7" Tall. The No-Slip Wedge™ meets or exceeds California TB 117-2013 fire safety standard.

No-Slip Wedge™ Reusable:

Made of high-density, antimicrobial foam. The dimensions are 20"W x 11" Deep x 7" Tall. Upholstered with a moisture-proof, reusable, nylon taffeta fabric cover. No-Slip fabric is used on the bottom to prevent movement when in use. The No-Slip Wedge™ meets or exceeds California TB 117-2013 fire safety standard.

No-Slip Wedge™ Extra-Long Reusable:

Made of high-density, antimicrobial foam. The dimensions are 26"W x 11" Deep x 7" Tall. Upholstered with a moisture-proof, reusable, nylon taffeta fabric cover. No-Slip fabric is used on the bottom to prevent movement when in use. The No-Slip Wedge™ meets or exceeds California TB 117-2013 fire safety standard.
